Starknet Sports Pool

# Starknet Sports Pool - What are we solving

Starknet Sports Pool solves the hassle of managing friendly sports betting pools among friends, family or office colleagues, making it fun and easy to connect during the tournament.

During major sports tournaments like the Soccer World Cup, NBA or Champions League everyone loves a good office pool. But managing them manually is a nightmare.

Our app eliminates the frustration of managing these friendly betting leagues, making it incredibly easy to set up, track, and celebrate predictions with your friends and colleagues.

Also, users don't have to worry about complicated private keys or seed phrases because our solution uses Gasless Paymaster technologies to sponsor account creation, simplifying user onboarding to Starknet.

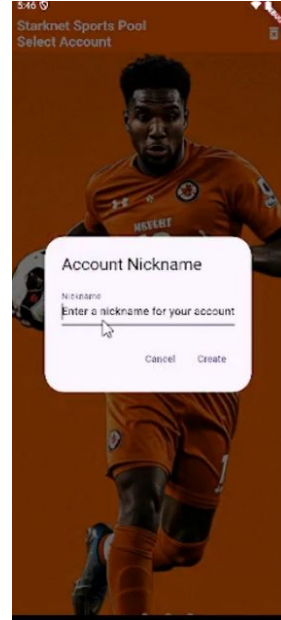

# Starknet Sports Pool - How are we solving

Starknet Sports Pool is based in a smart contract that let users create custom leagues, register into leagues paying an entry fee and compete against other users. At the end, a administrator user will set final results and winners then could claim their prizes based in percentage of total fees.

Also use Avnu Paymaster to sponsor account creation and deploy and in the future (why not?) sponsor user transactions too.

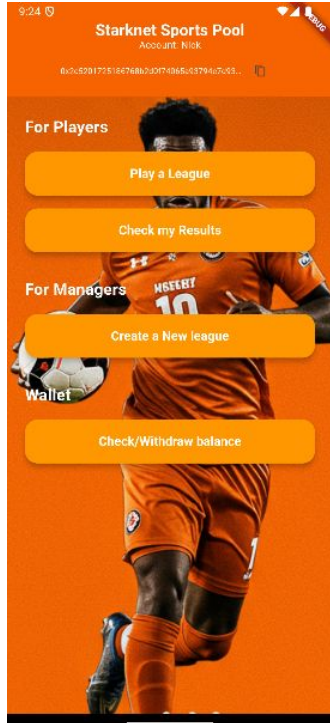

# Starknet Sports Pool - Onboarding

First time you just press “create account” button, set your nickname and we will create and deploy the account for you.

## Admin Menú

## Create Tournament Templates

The screenshot shows the "Create Tournament Template" form. It has a title bar with a back arrow and the text "Create Tournament Template". The form fields include: "Name" (text input), "Description" (text input), "Image URL" (text input) with a "Show Image Preview" button, "Entry Fee" (text input), "Prize First Place (%)" (text input), "Prize Second Place (%)" (text input), and "Prize Third Place (%)" (text input). At the bottom, there is a "Create Tournament Template" button.

## Register Match Results

The screenshot shows the "Edit Tournament" form. It has a title bar with a back arrow and the text "Edit Tournament". The form includes: a "Select Tournament Template" section with a dropdown menu showing "Champions League 2025"; a "Select Game and Edit Result" section with a "Game" dropdown menu showing "PSG vs Arsenal"; a score input section with "PSG" (1) and "Arsenal" (0) boxes separated by "vs"; a checkbox for "Mark as played" which is checked; and a "Save Result" button at the bottom.
