## Experience

### Graphic Designer and Motion Graphics

Mar 2024 - May 2024

GlitchBox, Kolkata (Remote)

- Spearheaded the execution of diverse design projects, specializing in website advertisements and captivating motion graphics, enhancing GlitchBox's visual brand identity and online presence.
- Demonstrated adeptness in managing remote work dynamics, ensuring timely project delivery and seamless communication with the team, underscoring adaptability and effectiveness in remote work environments.
- Acknowledged for exemplary performance, receiving a stipend in recognition of contributions to GlitchBox's creative initiatives, highlighting dedication and valuable contributions as a Graphic Designer and Motion Graphics Intern.

### Human Resource Intern

Aug 2024 - Nov 2024

SND Technologies, Pune (Remote)

- Managed end-to-end recruitment processes, including job postings, resume screening, conducting interviews, and onboarding new hires, ensuring a smooth hiring experience.
- Effectively coordinated with teams to streamline HR operations, demonstrating strong communication and organizational skills in a remote work environment.
- Recognized for contributions to talent acquisition and employee engagement, showcasing dedication and proficiency in human resource management.

## Projects

### Password Generator & Manager

Jul 2024

- Developed a secure and user-friendly password generator and manager using HTML, CSS, and JavaScript. Implemented features like password strength selection, import/export of saved passwords, and full CRUD functionality (copy, edit, delete). Enhanced security and usability, ensuring seamless password management for users.

### VoiceMate - AI Assistant

Dec 2024

- Developed an AI-powered voice assistant using Python, enabling hands-free system control. Integrated features like taking screenshots, opening apps, performing Google searches, accessing files and folders, and system shutdown. Enhanced user convenience with seamless voice command execution.

## Leadership / Extracurricular

### Project Team Leader - E-Commerce Website Development

Nov 2023 - Dec 2023

- Led a team in developing an e-commerce website using WordPress, ensuring adherence to timelines and quality standards.
- Facilitated communication and collaboration among team members to foster a productive working environment.
