Ivy-NW

Summary

A dedicated Frontend Developer with a passion for crafting modern, responsive, and user-friendly web applications across both Web2 and Web3 ecosystems. Skilled in frameworks like React, Next.js, and Vue.js, with a focus on building scalable and accessible interfaces that deliver seamless user experiences. Experienced in collaborating with cross-functional teams, including designers, backend developers, and product managers, to bring ideas to life and deliver solutions that align with both user needs and business goals. In Web2, work has included developing high-performance applications with clean architecture and cross-browser compatibility, while in Web3, contributions include building decentralized applications (dApps) with wallet integrations, smart contract interactions, and on-chain data visualization. Known for a detail-oriented approach, problem-solving mindset, and ability to adapt in dynamic environments, with a commitment to driving innovation and creating meaningful digital experiences.

Experience

August 2024- September 2024

Freelance
Lead Frontend Developer
Remote

🔗 https://hoobank-2.vercel.app/

- Developed the **frontend architecture** of the HooBank payment platform using **React.js** and **Tailwind CSS**, ensuring a clean, modern, and responsive design.
- Implemented **accessible and user-friendly UI/UX components**, focusing on delivering a seamless experience for managing payments.
- Collaborated closely with **designers** to translate wireframes and prototypes into functional, pixel-perfect interfaces.
- Optimized the website for **performance and cross-browser compatibility**, ensuring reliability across various devices and platforms.
- Contributed to the creation of **interactive elements** and smooth animations, enhancing the overall user experience.
- Participated in **team discussions and code reviews**, ensuring high-quality code and alignment with project goals.

March 2024- July 2024

Freelance
Frontend Developer
Remote

🔗 https://brainwave1.vercel.app/

- Designed and developed the **frontend interface** for the BrainwaveCurve AI chat app, focusing on responsiveness and user-friendliness.
- Built and optimized **interactive features** to enhance productivity and user engagement.
- Partnered with **designers** to deliver an intuitive and visually appealing user experience.
- Improved the app's **scalability and performance**, ensuring reliability across multiple devices.

September 2023- December 2023

Freelance
Frontend Developer - Intern
Remote

🔗 https://iphone15-1.vercel.app/

- Developed **the Apple iPhone 15 Pro website** using React.js and TailwindCSS, focusing on design accuracy and functionality.
- Created **smooth animations** with GSAP to enhance user interaction and visual appeal.
- Integrated **3D rendering** of the iPhone 15 Pro in multiple colors and shapes using Three.js.
- Ensured a **responsive and dynamic user interface** that closely mirrors the original website.
- Collaborated with **team members** to fine-tune animations, optimize performance, and improve 3D model accuracy.

March 2023-May 2023

Freelance
Frontend Developer
Remote

🔗 https://fitlife-1.vercel.app/

- Developed **Fitlife**, a fully responsive fitness website, as a **personal project** to inspire and assist individuals on their fitness journey.
- Designed and implemented the website using **HTML, CSS, and JavaScript**, ensuring a clean and user-friendly interface.
- Focused on creating a **seamless, responsive experience** for users across all devices, including desktops, tablets, and smartphones.

June 2023 - July 2023

Freelance
Frontend Developer
Remote

🔗 https://ecommerce-22.vercel.app/

- Developed **Ecommerce-ui**, a fully responsive eCommerce website, as a **personal project** to provide a seamless shopping experience across all devices.
- Added **interactive elements** to enhance user engagement and improve the shopping experience.
- Performed **cross-browser testing** to ensure compatibility and consistent performance

Education

September 2022 - Present

Zetech University
Computer Science and IT
Degree In Software Engineering
