

# JOSEPH GIMBA

## Blockchain Developer

☎ +234 817 010 6043 ✉ joewigimbasin@gmail.com  [linkedin.com](#)  <https://github.com/Joewizy> 📍 Nigeria, Abuja  
+234 902 638 4570

## SUMMARY

Experienced Blockchain Developer with 2 years of hands-on experience, a Computer Engineering degree, and 5 years immersed in the crypto ecosystem. I leverage my technical expertise to build secure, scalable, and transformative decentralized solutions that address real-world challenges.

## SKILLS

BlockchainTools: Foundry, Hardhat, Ethersjs, Web3js, Slither

Backend & APIs: Node.js, Prisma ORM, PostgreSQL, GraphQL, REST

Programming Languages: Solidity, Move, Rust, JavaScript, TypeScript, Python

Concepts: DeFi, DAO, dApps, Tokenization, NFTs, Chainlink, Gasless tx, ZK

## EXPERIENCE

2024

Abuja, Nigeria

### Blockchain Developer and Educator

#### National Information Technology Development Agency

- Led development of a decentralized budget management system, reducing administrative costs by 20% through smart contract automation.
- Drive Web3 adoption by educating teams on blockchain's potential to enhance transparency and reduce fraud, while innovating through advanced technologies like smart contracts to solve critical real-world challenges.

2021

Kaduna, Nigeria

### IT Infrastructure & Network Intern

#### Khemsafe Computer & Communication Limited

- Contributed to web development projects, supporting front-end and back-end tasks to enhance online platforms.
- Engineered diverse robotics projects leveraging Arduino, Raspberry Pi, and computer vision to automate tasks, enhance system efficiency, and enable intelligent decision-making.
- Assisted in both hardware and software maintenance, ensuring optimal performance of system tools and network infrastructure.

## EDUCATION

2016 - 2023

Minna, Nigeria

### Bachelor of Engineering in Computer Engineering

#### Federal University of Technology Minna

## PROJECTS

### Decentralized P2P System

A fully decentralized P2P trading platform that leverages blockchain technology to ensure secure, transparent, and trustless transactions.

### Real Estate Asset Management Smart Contract

Developed a smart contract for real estate tokenization that enables fractional ownership, manages asset shares, and facilitates efficient, secure transactions for Real World Assets (RWA).

### Blockless Fund

A fully decentralized crowdfunding platform where whitelisted NGOs and vetted creators can launch campaigns instantly, while the community proposes and votes on new initiatives via a DAO model. Commit-reveal voting to secure decisions and Chainlink VRF automate fund releases when goals are met.

### Solstruct (Blockchain tool)

A CLI tool built in Rust for scaffolding Solidity projects. Supports custom templates, project bootstrapping, and enforces best practices.

## INTERESTS

Blockchain Technology, Software development, Gaming, Content creation, Football, Fitness

## Open Source Contribution

Active contributor to open source projects, focusing on improving and developing tools for blockchain ecosystems.
