Career Objectives

A skilled undergraduate Full Stack Developer with expertise in Web 3.0 and App Development. Experienced in building dynamic applications using modern frameworks like React, Node.js, and React Native. Passionate about UI/UX design, blockchain, and smart contracts, with a strong foundation in database management and leadership. Eager to contribute to innovative projects in a collaborative environment.

Experience

Freelance Full Stack Developer 2024-present

- Designed and developed custom websites and web applications for clients using technologies like React, Node.js, and MongoDB, etc.
- Created responsive, user-friendly interfaces with a focus on UI/UX design using Figma.
- Provided end-to-end solutions, from the initial concept to deployment and maintenance of applications.

Developer 2024-present LNC Community

- Developed and optimized app, web applications and tools for the community using Full Stack technologies (React, Node.js, MongoDB, etc).
- Worked on blockchain and smart contract projects, integrating Web 3.0 functionalities into community tools.

Vice President 2024-present LNC Community

- Led cross-functional teams (developers, marketing, designers) to create and maintain the community's digital platforms.
- Managed project planning, task delegation, and ensured smooth communication and timely delivery of initiatives.

Projects

VulnHuntX Aug 2024-Oct 2024 Role: Full Stack Developer

- Built a React & Node.js vulnerability scanner integrating FFuf for fuzzing.
- Optimized error handling, JSON parsing, and structured result display.

Flourish Sept 2024-Nov 2024 Role: React Native Developer

- Developed an AI-driven gardening app using Google Gemini AI & CosmoCloud APIs.
- Designed a scrollable plant library with structured search results and useful links.

Edu_Token (Web 3 project) Dec 2024-present Role: Blockchain & Frontend Developer

- Created a decentralized education reward system on Ethereum with Solidity smart contracts.
- Integrated Web3.js for token transactions and a React.js frontend for user interaction.
